

FIG. 1 is a block diagram of a computer system 20. The system 20 includes a CPU 21, a video adapter 48, a monitor 47, a network adapter 53, a LAN 51, a remote computer 49, a memory 50, a serial port interface 46, a modem 54, a WAN 52, a microphone 43, an input device 42, a speaker 45, a removable storage 29, an optical disk 31, an optical disk drive 30, a magnetic disk drive 28, a hard disk drive 27, and a bus 23. The CPU 21 is connected to the video adapter 48, the network adapter 53, the bus 23, and the serial port interface 46. The video adapter 48 is connected to the monitor 47. The network adapter 53 is connected to the LAN 51, which is connected to the remote computer 49. The remote computer 49 is connected to the memory 50. The serial port interface 46 is connected to the modem 54, which is connected to the WAN 52. The microphone 43 is connected to the input device 42, which is connected to the bus 23. The speaker 45 is connected to the bus 23. The removable storage 29 is connected to the bus 23. The optical disk 31 is connected to the optical disk drive 30, which is connected to the bus 23. The magnetic disk drive 28 is connected to the bus 23. The hard disk drive 27 is connected to the bus 23. The bus 23 is connected to the CPU 21, the video adapter 48, the network adapter 53, the serial port interface 46, the microphone 43, the input device 42, the speaker 45, the removable storage 29, the optical disk drive 30, the magnetic disk drive 28, and the hard disk drive 27.

FIG. 6B

FIG. 6C is a schematic diagram of a user interface for a meeting management system. The interface includes a header section 304, a list of meeting items 302, and a details section 306. The header section 304 contains a search bar 308 and a filter icon 302. The list of meeting items 302 displays a grid of meeting details, including the subject, location, attendees, duration, start date, start time, and end time. The details section 306 provides a 'DO:' field for further action.

FIG. 6F

FIG. 7A is a schematic diagram of a user interface for a project management system. The interface includes a header section 320 and a main content area 322. The header section 320 contains a status of alpha project. The main content area 322 contains a form with fields for LOCATION, ATTENDEES, DURATION, START DATE, START TIME, and END TIME. A DO: field is located below the main content area.
